

Pawel Mikolajczak

Welder / Pipefitter

Residence: Switzerland

City: Murgenthal

Age: 35

Telephone: +41 77 205 91 26

Email: contact@pawelmikolajczak.pl

Website: www.pawelmikolajczak.pl

Languages

Technical skills

- Tig Welding
- Mig Welding
- Pipefitting
- Reading technical drawings and schematics
- Cutting, threading, and bending pipes
- Leak testing and pressure testing
- Installation of valves and fittings
- Reading technical drawings and schematics

"I AM AN EXPERIENCED TIG WELDER SPECIALIZING IN PIPELINE INSTALLATIONS AND ADVANCED STEEL STRUCTURES. I CONSISTENTLY DELIVER PRECISE, HIGH-QUALITY WORK, EVEN IN DEMANDING PROJECTS. I AM A NON-SMOKER, REGULARLY TRAIN AT THE GYM, AND PRACTICE EXTREME SPORTS SUCH AS DOWNHILL BIKING."

07.2024 - Now

Mechtop AG

Welder & Pipefitter

- Welding (black & stainless steel) per technical specs.
- Assembly & prefabrication from drawings.
- On-site measurements and adjustments.
- Material calculation & resource optimization.
- Task planning & workshop/site coordination.
- Quality control per standards and specs.
- Leakage & integrity testing.

08.2023 - 10.2023

ZAUNERGROUP

Pipe Fitter

- Industrial piping installation (chemical/pharma).
- Welding preparation (cutting, grinding, fitting).
- On-site measurement & structural adjustment.
- Collaboration with engineers & trades.
- Compliance with safety & cleanroom standards.

01.2023 - 03.2023

Abble Group

Lead installer, Welder & Pipefitter

- Food industry piping installation & welding.
- Skid/module prefabrication & assembly.
- Team supervision & on-site coordination.
- On-site measurement & component adaptation.
- Compliance with hygiene & industry standards.

11.2022

Zott SE & Co. KG

Lead installer, Welder & Pipefitter

- Stainless steel piping fabrication & welding (food industry).
- Skid/module prefabrication & assembly.
- Hygienic piping installation per industry standards.
- On-site measurements & component fitting.
- Team coordination & supervision.
- Ensuring compliance with hygiene & quality standards.

02.2021 - 05.2022

GSC Sp. z o.o. Sp. K. (Baltic Pipe project)

Pipefitter

- Installation of pipeline systems for gas industry
- Pipe preparation including cutting, grinding, and precise fitting.
- On-site measurement and component alignment.
- Cooperation with engineers and technical teams on-site.
- Compliance with gas industry safety standards and quality requirements.

10.2023 - 07.2024

Hälg Holding

Lead installer, Welder & Pipefitter

- HVAC and plumbing installation & maintenance.
- Welding (black & stainless steel pipes).
- Leakage testing & repairs.
- On-site measurements & fitting.
- Team coordination & task management.

04.2023 - 07.2023

MHR montage

Lead installer, Welder & Pipefitter

- Fabrication & assembly of large-diameter pipelines (incl. flanges & bends).
- TIG/MIG welding (carbon & stainless steel)
- Pipe edge grinding & weld preparation.
- On-site assembly & alignment (rollers, cranes).
- Flange & fitting installation for sealing integrity.
- Technical drawing interpretation & accurate prefabrication.
- Collaboration with engineers & project teams.

11.2022 - 01.2023

GSC Sp. z o.o. Sp. K. (Baltic Pipe project)

Welder & Pipefitter

- Large-diameter pipeline fabrication & assembly
- TIG/MIG welding of carbon & stainless steel pipes.
- Grinding & edge preparation for accurate pipe fit-up.
- On-site assembly & alignment using rollers/cranes.
- Installation of flanges & fittings

06.2022-11.2022

Ferrero International S.A

Lead installer, Welder & Pipefitter

- Stainless steel piping installation & welding for chocolate production lines.
- Modular process system assembly & skid prefabrication.
- Precise on-site measurements and component adjustments.
- Coordination and management of installation teams.
- Ensuring strict adherence to food safety and hygiene standards.

10.2020 - 02.2021

Stark Inox

Welder & Pipefitter

- Welding and assembly of stainless steel tanks and piping systems.
- Fabrication and installation of steel structures and railings.
- Pressure testing for system integrity verification.
- Precision welding and fitting with minimal tolerance (± 0.1 mm).
- Quality control ensuring compliance with technical specifications.

Organizational Skills

- Team leading
- Precision and attention to detail
- Communication and teamwork
- Independence and responsibility
- Logical thinking and problem-solving

Certifications and Training

- TIG PN-EN ISO 9606-1:2017-10 141 T BW FM1 S s6.3 D33.7 H-L045 ss nb
- TIG EN ISO 9606-1, 141, T, BW, FM5, S, t2.11, D21.3, HLO45, ml, ss nb WPS-005
- TIG ISO 9606-1 141 T BW FM5 S 1.0 D40 H-L045 ss gb
- SCC Nr. VPC23102-0348
- Abrasive wheels No. 09202302031943
- HOT WORKS No. 1000835/2018
- Manual Handling Training Certificate ID 63f52bc9b7cb7a407630b13b
- Manual handling theory training Certificate ID 63e514f1105bf9002e0affe b

04.2019 - 08.2020

Bitburger Braugruppe

Welder & Pipefitter

- Design, dismantling, and installation of stainless steel pipelines for brewery water and steam systems.
- Optimization of pipeline routes for efficiency and space utilization.
- Precision welding and assembly ensuring system integrity.
- On-site measurements and adaptation to existing infrastructure.

10.2018 - 12.2018

SØGAARD INDUSTRI

Welder

- TIG welding and assembly of stainless steel pipelines and tanks (food & pharma industry).
- Material preparation, cutting, bending, and fitting.
- Quality control of welds per industry standards.

10.2016 - 05.2018

LA PARMENTIÈRE

Welder

- Full construction of machines from scratch.
- Operation of press brakes and sheet metal rollers.
- Assembly and TIG welding of complete machines.
- Precision fitting and alignment of components.

06.2016 - 11.2016

Blikkenslagern Tak Og Fasader

Roofer & Welder

- Dismantling and rebuilding wooden roofs.
- Carpentry work and structural assembly.
- Occasional welding of steel construction elements.
- Installation of insulation and roof tiles.

01.2015- 06.2015

Bludnicki S.A.

Fitter & Welder

- Construction of stainless steel catering furniture.
- Cutting, welding, and integrating sinks.
- Full assembly and finishing, including grinding.
- Precision work with thin sheets (0.6mm - 1.2mm).

02.2019 - 03.2019

Bilfinger Industrietechnik Salzburg GmbH

Pipefitter

- Preparation and fitting of stainless steel pipes for orbital welding in a pharmaceutical project.
- Precise pipe alignment and assembly according to technical specifications.
- Ensuring compliance with industry standards for cleanroom environments.

05.2018 - 09.2018

Entreprise Veyrat-Masson

Fitter

- Welding, assembly, and maintenance of steel structures in large steel mills.
- Diagnosis, repair, and prevention of equipment failures.
- Ensuring continuous operation through regular inspections.
- Compliance with industrial safety standards.

01.2016 - 06.2016

Interplastic

Welder

- TIG welding of sports equipment (steel & aluminum).
- Fabrication of soccer and hockey goals, stands, and custom structures.
- Assembly of museum cabinets and various custom projects.
- Precision welding and finishing for durable, high-quality products.

05.2014- 07.2014

Dimakt, Maersk galant Oil Rig

Fireguard & Welder Helper

- Fireguard duties ensuring welding safety on the rig.
- Assisting welders with equipment and material handling.
- Cleaning and preparing work areas for welding operations.
- Supporting maintenance tasks on offshore structures.
